E. Sixma

Travel and Hotel Safety

- CGGVeritas made available to IAGC:
 - Travel Safety Guide
 - Hotel safety checklists*
- Propose IAGC reviews and adopts these documents for publication on its website:
 1. Editable format, but with IAGC logo on it
 2. Member companies can then put on their own logo's and insert their own emergency numbers etc.
 3. Eelco Sixma, CGGVeritas will be happy to collect feed back and edit for IAGC

* Based on Shell example.

Travel to Come Home!

- Addresses key risk areas specific for travel:
 - General advise
 - Medical
 - Hotel safety
 - Security
- Based on OGP/IPIECA travel guide, but more nuts and bolts and really targeted at individual traveler.

Hotel checks

- Checklist for inspection before use by local area offices/crew
- Checklist for traveler
 - Serves as a reminder (e.g. to check escape routes)
 - Provides further feed back
- Given the huge number of hotels the IAGC membership uses, there would be mutual benefit for IAGC collecting and sharing these hotel inspections?
